

IMMUNITY

FOR  
FEED

# Algimun®

Strengthened natural defenses  
for improved performances

- 100% natural and sustainable
- Patented
- Proven (published) mode of action
- **Unique extracts (sulfated polysaccharides)**, not found in terrestrial plants, nor in microalgae, nor in yeasts!

MSP®  
INSIDE

Thanks  
to algae!

# IMMUNITY

## OBJECTIVE

Strengthen animal's natural defenses, that are daily challenged in modern intensive production systems, to **secure and optimize performance**.

## WHAT?

Association of natural macroalgae extracts (**Sulfated polysaccharides - MSP\***) with biological activities, isolated thanks to **Olmix unique technologies**.

MSP Structure

- 1° - Diversity of sugar units (e.g. glucose, fructose)
- 2° - Presence of rare sugars (e.g. rhamnose)
- 3° - Branching → Increased biological activities
- 4° - Sulfation → Unique biological activities

## HOW?

MSP<sup>®</sup> BARRIER improves the **integrity of the intestinal wall** for higher resistance to pathogenic aggressions.

MSP<sup>®</sup> IMMUNITY modulates the **production of several immune mediators** to strengthen both innate and adaptive immune responses.

## BENEFITS

- Better resistance to stress
- Secures performance
- Contributes to the reduction of antibiotic use

## DOSAGE

From 1 to 4 kg/T of feed depending of stage and species

## WHEN?

- **To be incorporated in feeds**
- All cycle but more particularly starters and growers feeds
- Also recommended in breeders or lactation feeds

## PACKAGING

Algimun<sup>®</sup> is available in  
• 25 kg bags • 1 000 kg palets (40 bags)
